## Impact Overview

### Problems addressed

Up to 60% of on-site-visits from frontline workers are unnecessary, causing CO2 emissions and wasting significant staff capacity.

### Impact goal progress

No metrics tracked so far.

### Reduce CO2 emissions

Our corporate customers

Worldwide

Climate, Air

Instead of employees driving to their customers on site, they carry out digital checks, thus saving travel time and CO2.

### Work more efficiently

Employees of our customers, organizations

Worldwide

Diversity & Inclusion, Employment

Employees can work digitally instead of driving on-site, so they can get more done in the same amount of time and finish their workday on time because there is no need to drive to and from the customers' site.

### Fast and affordable support

Diversity & Inclusion, Climate,

Individuals

Worldwide

Infrastructure

An on-site visit always costs a lot of time (the longer the journey, the more time) and thus also increasing costs for end customers, which are significantly lower with a digital check, which can also be carried out at short notice.
